

Workshop Objectives

Establish an enduring community of practice that can share best practices, key findings and resources in support of the institutionalization and operationalization of WPS.

Provide a forum for dialogue and practical exchanges around UNSCR 1325 and related Resolutions, National Action Plans, as well as the strategies, programs and approaches of defense organizations in the hemisphere.

Enable participants to develop recommendations for implementing WPS at the strategic, operational and tactical levels.

Learning Outcomes

1. Describe ways governments, departments of defense, and armed forces could do more to advance WPS in domestic, regional, and international operations.
2. Describe how departments of defense and armed forces can further institutionalize (mainstream/integrate) WPS.
3. List approaches for governments, departments of defense, and armed forces to advance WPS in domestic, regional, and international operations.
4. Describe how your institution can further institutionalize (mainstream/integrate) WPS across policy, systems, programs, processes, projects, activities and organizational culture.
5. Describe how your country is integrating WPS pillars (prevention, protection, participation, relief and recovery) in operations.
